Notes to the Financial Statements

For the Year ended 30 June 2017

The financial statements cover Queer Screen Limited as an individual entity. Queer Screen Limited is a not for profit Company Limited by Guarantee incorporated in New South Wales under the Corporations Act (Cth) 2001. Queer Screen Ltd is a registered charity pursuant to the Australian Charities and Not-for-profit Commission Act (Cth) 2012 ('the Act').

The functional and presentation currency of Queer Screen Limited is Australian dollars.

1. Basis of Preparation

In the opinion of the Board of Queer Screen Ltd, the company is not a reporting entity since there are unlikely to exist users of the financial report who are not able to command the preparation of reports tailored so as to satisfy specifically all of their information needs. These special purpose financial statements have been prepared to meet the reporting requirements of the Act.

The financial statements have been prepared in accordance with the recognition and measurement requirements of the Australian Accounting Standards and Accounting Interpretations, and the disclosure requirements of AASB 101 Presentation of Financial Statements, AASB 107 Statement of Cash Flows, AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors and AASB 1054 Australian Additional Disclosures.

The financial statements have been prepared on an **accruals basis** and are based on historical costs modified, where applicable, by the measurement at fair value of selected non current assets, financial assets and financial liabilities. Significant accounting policies adopted in the preparation of these financial statements are presented below and are consistent with prior reporting periods unless otherwise stated.

(a) Cash and Cash Equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short term investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

(b) Provisions

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

(c) Employee Benefits

Provision is made for the company's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be wholly settled within one year have been measured at the amounts expected to be paid when the liability is settled.

Employee benefits expected to be settled more than one year after the end of the reporting period have been measured at the present value of the estimated future cash outflows to be made for those benefits. In determining the liability, consideration is given to employee wage increases and the probability that the employee may satisfy vesting requirements. Cashflows are discounted using market yields on national government bonds with terms to maturity that match the expected timing of cashflows. Changes in the measurement of the liability are recognised in profit or loss.

Employee benefits are presented as current liabilities in the assets and liabilities statement if the Company does not have an unconditional right to defer settlement of the liability for at least one year after the reporting date regardless of the classification of the liability for measurement purposes under AASB 119.

(d) **Revenue and Other Income**

Revenue is recognised when the amount of the revenue can be measured reliably, it is probable that economic benefits associated with the transaction will flow to the Company and specific criteria relating to the type of revenue as noted below, has been satisfied.

Revenue is measured at the fair value of the consideration received or receivable and is presented net of returns, discounts and rebates.

All revenue is stated net of the amount of goods and services tax (GST).

Sale of Goods

Revenue is recognised on transfer of goods to the customer as this is deemed to be the point in time when risks and rewards are transferred and there is no longer any ownership or effective control over the goods.

Interest Revenue

Interest is recognised using the effective interest method.

(e) **Goods and Services Tax (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the assets and liabilities statement are shown inclusive of GST.

2. **Company Details**

The Company is a Company Limited by Guarantee. The effect of the Guarantee is that every member of the company undertakes to contribute to the property of the company in the event of the company being wound up whilst they are a member, or within one year after they cease to be a member, for payment of the debts and liabilities of the company contracted before they ceased to be a member, and the costs, charges and expenses of winding up and for the adjustment of the rights of the contributors among themselves, such amount as may be required, not exceeding one hundred dollars.
